

CREATE YOUR OWN CROSSWORD PUZZLE

Your Task: Create a crossword puzzle using important people, places, events, and vocabulary from this unit.

Instructions:

1. On a regular sheet of paper, create a list of 15 important people, places, events, or vocabulary from the unit.
2. Make sure these terms are spelled correctly and have the correct number of letters.
3. Create a clue for each word (this can be a detail, a question, a definition, etc.).
4. Still on your own paper, begin writing the words out in various crisscross combinations.
5. Once you have something you like make note of which words go across and which words go down. Separate the clues into across clues and down clues.
6. After you have completed all the steps above, show this to your teacher and receive a piece of graph paper.
7. Draw the boxes and clues as neatly as possible on the graph paper.
